California Proposition 65 Labeling Workshop

Monday, September 28, 2015

Marriott Crystal Gateway Hotel Arlington, Virginia

Course Description

The goal of this workshop course is to provide a detailed understanding of the labeling obligations under California Proposition 65. Emphasis will be placed on the risk-based requirements of California Proposition 65. The course will provide ample time for working on examples relating to determining the need for California Proposition 65 labeling and for participant discussion of California Proposition 65-related issues.

This is considered to be an advanced course. While there are no formal prerequisites for this course, it is strongly recommended that participants have a working knowledge of MSDS and labels and that they have either taken the SCHC courses Toxicology for Hazard Communication and Hazard Determination and Risk Assessments or that they are comfortable with the basic principles of toxicology and risk assessment.

Intended Audience

Hazard communication professionals looking to improve their California Proposition 65 labeling skills.

Course Director/Instructor

Robert Skoglund, Ph.D., DABT, CIH

Dr. Skoglund is presently working on special projects at 3M including the hazard classification of base chemicals, the development of occupational exposure limits, and the assessment of downstream user obligations under EU REACH.

Course Instructor

Hillary Carpenter, Ph.D.

Dr. Carpenter is retired from being a Toxicologist at the Minnesota Department of Health in St. Paul, Minnesota. His primary responsibilities included the conducting human health and ecological risk assessments. In addition he was involved with the development of health-based toxicity values for environmental contaminants such as industrial chemicals, pesticides and metals. Dr. Carpenter also provided toxicological support for the Minnesota Fish Consumption Advisory Program.

Course Instructor

Catherine F. Jacobson, Ph.D., DABT

Dr. Jacobson is a Senior Toxicology Specialist at the 3M Company. Her primary responsibilities include assessing the human health hazards and risks of products and other materials for several 3M business units. In addition, she is responsible for authoring of hazard communication documents, tracking emerging material EHS regulations, and developing comprehensive health hazard profiles for substances important to 3M.

Course Instructor

Robert Roy, Ph.D., DABT

Dr. Roy is a Lead Toxicology Specialist at 3M in St. Paul, Minnesota. His primary responsibilities include assessing the human health hazards and safety of products and other materials for several 3M business units. In addition, he leads the development of the 3M Occupational Exposure Guidelines; and plays a leadership role for California Proposition 65 compliance, consumer product labels, and hazard determination, hazard communication, and human risk assessment issues.

Course Fee

\$250.00 for members
\$340.00 for non-members
