

Ms. Hong has almost 18 years of Asia Pacific regulatory expertise. In 3E Company, she is responsible for researching, analyzing, and monitoring overall chemical and other EH&S related governmental legislations and regulations of the Asia Pacific countries. She is also tasked with delivering accurate and timely regulatory content to support 3E's products and solutions, as well as providing customer support for any Asia Pacific-related regulatory content, product inquiries, and compliance consulting projects.

Prior to joining 3E Company, Ms. Hong worked with an international trade compliance company as a regional trade manager, overseeing global trade and governmental regulations of 20 Asia Pacific countries. She also worked as a supply chain manager in Hong Kong and Japan, validating suppliers' product quality and credibility.

Ms. Hong earned her Bachelor of Arts in South Korea and Japan, and her Master of Arts in Asia Political Economy from American University in Washington DC. She also obtained her Graduate Certificate from Harvard University, majoring in East Asian Studies.

Ms. Hong is fluent in Korean and Japanese, and proficient in Mandarin.
