

## SPEAKERS BUREAU

---

The SCHC has established an Outreach Speakers Bureau on the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). The Speaker's Bureau is a list of members who have volunteered to speak and present information on the GHS and the impact on safety data sheets and labeling. Our volunteers are offering their time to various local community organizations and to local and state fire, police and other responder groups to increase the visibility of SCHC and awareness of the GHS.

Volunteer speakers are not compensated by the SCHC or the party desiring a speaker. Local organizations such as labor groups, and interested citizen groups who desire a speaker may contact our members directly to schedule a presentation.

### **Disclaimer**

The SCHC members listed below have volunteered to share their knowledge and expertise on the GHS with other organizations in their local community. This is a volunteer activity and volunteers are not paid by either SCHC or the requesting organization. This activity is being offered as a community service. SCHC has not qualified these speakers and inclusion on the list does not constitute a recommendation or endorsement of any kind. The user must determine the suitability of the speaker for their purposes.

Contact the individual directly using the contact information provided to arrange a speaking engagement. SCHC will not make arrangements and cannot be responsible for any aspect of this volunteer activity.

This is not a consulting activity. Employers and others seeking consulting on the GHS for training or other purposes should refer to the [SCHC Consultants Listing](#).
