

EU Chemicals Strategy for Sustainability

**Chris Cullen, Consultant
Ricardo**

Presenter biography

Working within NCEC at Ricardo Energy & Environment, one of the UK's leading sustainability consultancies Chris aims to bring a fresh and innovative approach to solving of the world's most pressing chemical risk and environmental challenges to create a world fit for the future.

At the National Chemical Emergency Centre (NCEC) we provide chemical emergency response services and help steer clients, public bodies and associations through the complexities of chemical regulation and sustainable business practices ensure compliance with both current and future legislation.

Presentation abstract

Chris presentation provides an update on the EU Chemicals Strategy for Sustainability (CSS) sitting within the EU Green Deal, the overarching framework put in place to tackle the challenges faced through climate change and environmental degradation. Chris will cover the key aspects and actions arising out of the CSS, an update on progress made along with the potential implications that will arise in the future as a result.
