

The CHEMDOX Universe

A Brief Introduction

About CHEMDOX

- founded in 2011 as an associated company of UCS – unique computing solutions GmbH – since 1999
- is a safety data sheet authoring and classification software
- provides all necessary features for seamless hazardous material management for regulatory experts
- supports high quality classifications with strong regulatory content
- the generation of safety relevant documents becomes more efficient than ever before

The Basics of our Mission

- One-Stop-Shop
- Efficient & Easy to Use
- Open & Easy to Integrate
- Flexible & Easy to Automate
- Compliant & Easy to Audit
- State-of-the-Art Technology
- Support - CHEMDOX Inc., CHEMDOX GmbH, regional Partners

...because safety matters.

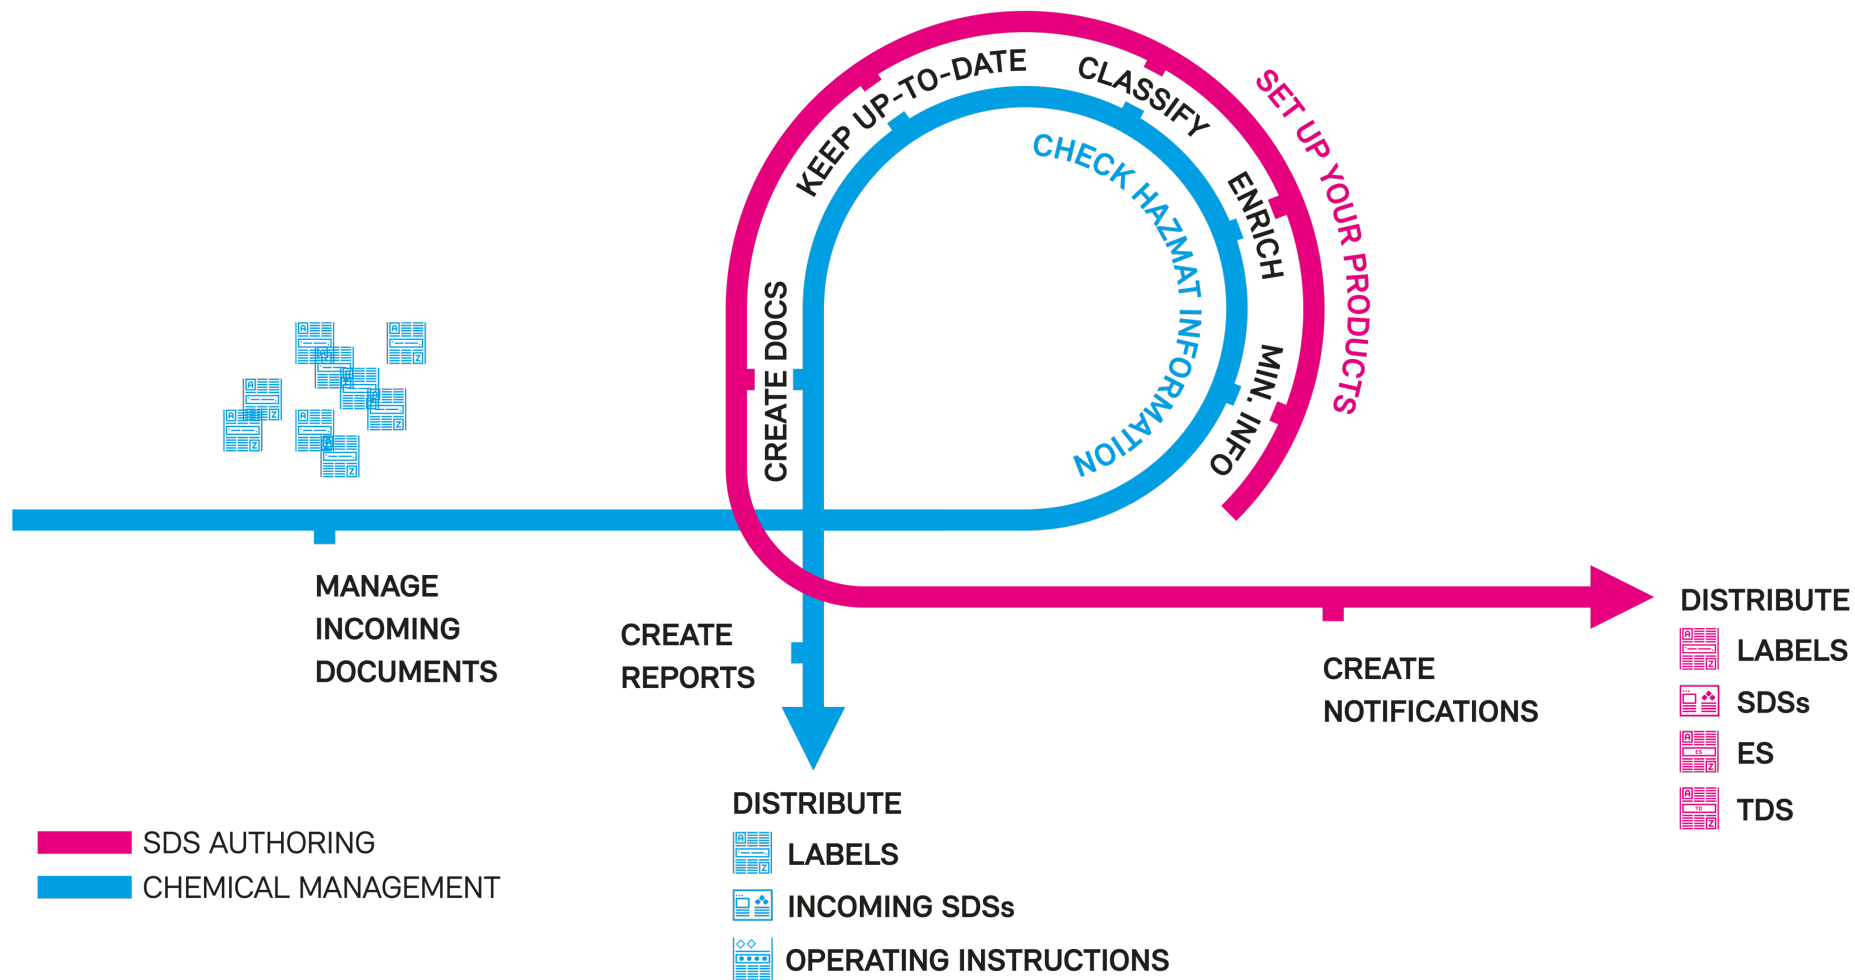

Where does CHEMDOX help?

- Supports regulatory Experts in **all tasks regarding hazardous materials management**
- The main application is CHEMDOX Core
- Can be extended with additional CHEMDOX APPS for specific use cases
- **CHEMDOX Core** forms together with the **CHEMDOX Apps** an **entire Universe**

A one-stop-shop solution for all challenges!

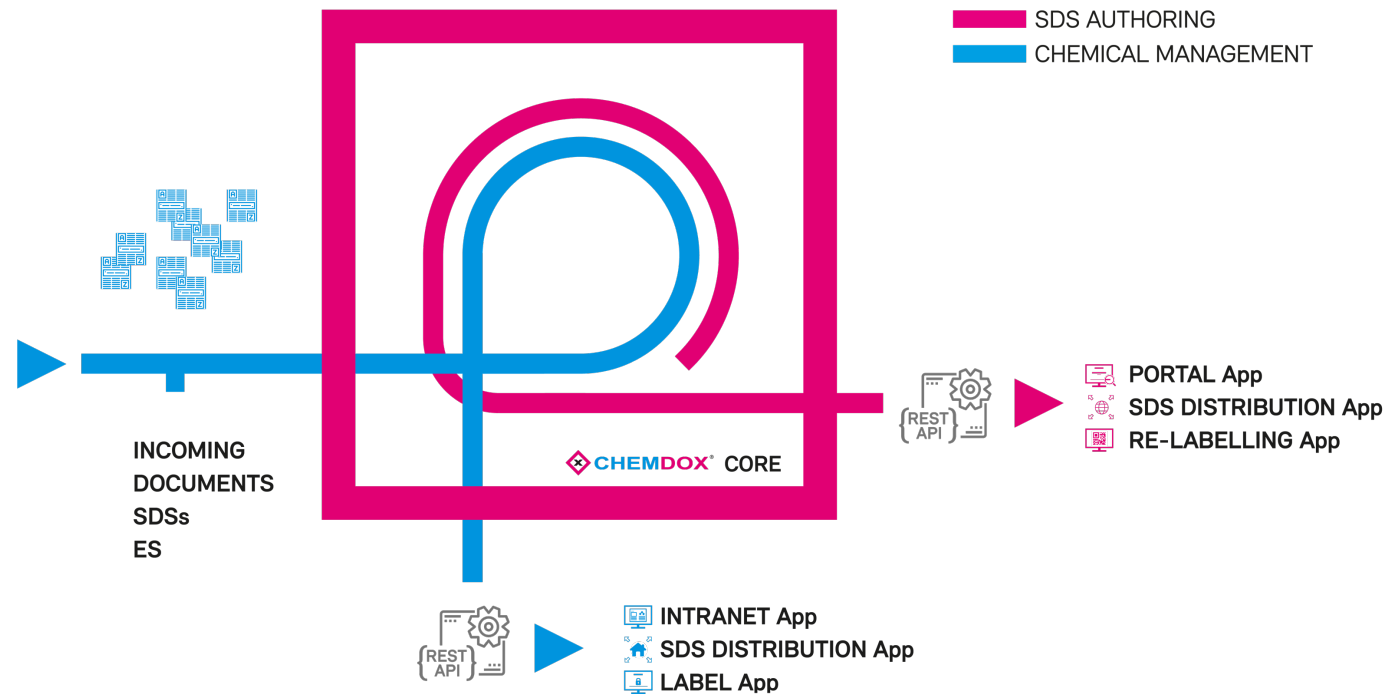

CHEMDOX Core supports with 2 major challenges

- hazard communication with downstream users, especially through generation of your own safety data sheets (**SDS AUTHORIZING**).
- internal hazard communication, through the processing of incoming safety data sheets and checking SDS information for plausibility and compliance (**CHEMICAL MANAGEMENT**).

CHEMDOX Apps

- Highly customizable, ready-to-use applications (CHEMDOX Apps) that are well integrated with CHEMDOX Core.

See how easy to use CHEMDOX is!

Explore efficiency!

Get excited!
