Leadership and Teamwork for Hazard Communication

Monday, April 18, 2016

Bahia Mar Resort – Ft. Lauderdale, Florida

Seminar Description

This seminar is designed to provide an overview of a theoretical understanding of leadership and its practical application to leading organizations, teams, and projects in Hazard Communication. In many work settings, leadership skills are as important as technical skills. This seminar will deliver a holistic and integrated approach to leadership which begins with a foundation of values and vision, then addresses a number of practical skills, and ends with a challenge to lead change and leave a legacy. Good leaders are always in demand and this seminar will provide participants with the skills critical to optimizing their effectiveness as leaders – specifically in Hazard Communication, but also in the broader context of Product Stewardship.

There are no prerequisites to this seminar.

Intended Audience

Hazard communication professionals looking to strengthen their leadership, teamwork and organizational alignment skills.

Seminar Director/Instructor

Robert Skoglund, Ph.D., DABT, CIH

Dr. Skoglund is the Director of Product Safety and Regulatory Affairs at Covestro LLC. His responsibilities include product EHS and stewardship, including hazard communication, for North America.

Course Instructor

Mark Cohen

Mark has 30 years of environmental, health and safety experience in the fields of hazard communication and chemical regulatory management. Having held global responsibilities for industrial & institutional products, and consumer products, (M)SDS systems and emergency services; Mark now provides hazard communication services for small and medium chemical manufacturers and distributors.
