Multi-Modal Hazardous Materials / Dangerous Goods
Classification Training

Sunday, April 22, 2018 through Monday, April 23, 2018

Course Description

This updated course covers DOT, IATA/ICAO (air transport) and the IMDG Code (ocean transport). The course combines lectures with classroom problem-solving and practical workshops. The curriculum focuses on the principles and practices of classifying, marking and labeling hazardous materials/dangerous goods. The successful completion of this 2 day multi-modal course will meet the requirements for initial and recurrent training under the DOT, IATA/ICAO and the IMDG Code for individuals involved in the classification of hazardous materials/dangerous goods. While the main emphasis of the course will be classification, additional topics covered will be packaging, marking, labeling and placarding of hazardous materials shipments. This course is specifically designed for the hazard communicator.

Classification is always the first and most important of the “Shipper’s responsibilities.” It dictates all other elements for compliance with the hazardous materials/dangerous goods regulations from shipping name selection to packaging, marking, labeling, documentation, and placarding. In this course, students will learn, via lectures, problems and examples, a systematic approach to evaluating physical, chemical and toxicological properties of compounds, mixtures and solutions. The resultant hazard determination leads to identification of the primary and subsidiary hazard class/ division and packing group. Reliable reference sources of relevant technical data will be identified and discussed. Hazard Classes 2-6 and 8-9 will be covered in detail. Explosives (Class 1) and Radioactive (Class 7) will not be covered in any detail. We recommend specialized courses for these hazard classes.

Emphasis will be placed on hazard class definitions (including the UN/IMDG criteria for Marine Pollutants), tests and criteria, the Hazardous Materials Table and Dangerous Goods Lists, shipping name selection, packing group assignments, hierarchy of hazards and subsidiary hazards. Other topics covered will include: recent changes in the regulations, marine pollutants, hazardous substances, elevated temperature materials and hazardous wastes. A brief overview of packaging, marking, labeling documentation, and placarding will be presented. Workshops will focus on classification examples for each class/division and selection of proper shipping names.

A test will be administered at the end of the course and students who pass the test will be awarded a certificate that documents the successful completion of the course.

Intended Audience

Hazard communication professionals looking to develop their skills in completing Section 14 of the SDS and/or developing compliant shipping descriptions for their products.

Course Fee: \$850 / members \$940 / non-members

Course Director / Instructor

Denese A. Deeds, CIH, FAIHA

Denese Deeds is co-founder of Industrial Health & Safety Consultants, Inc. and is certified in the Comprehensive Practice of Industrial Hygiene by the American Board of Industrial Hygiene. She has been consulting in the areas of Industrial Hygiene and Chemical Regulatory Affairs since 1981. In her position as Director of Chemical Regulatory Services she prepares MSDS and other hazard communication documents, files international chemical registrations and assists companies with overall chemical regulatory compliance. As part of her practice, Denese has assisted clients in the development of PPE programs, has delivered numerous training classes on respiratory protection, personal protective equipment and Hazwopper operations and has recommended various engineering solutions to industrial hygiene exposure problems in many different manufacturing settings. Prior to consulting, Ms. Deeds held industrial hygiene positions with Westinghouse Electric and General Electric. She is a fellow of the American Industrial Hygiene Association, the Academy of Industrial Hygiene and the Society for Chemical Hazard Communication, where she has served as President.

Course Instructor

Gene Sanders, CET, DGSA, CDGP

With over 20 years of extensive exposure working with Dangerous Goods in pharmaceutical, safety supplies, chemical, educational, waste, and clinical trials environments, Gene is knowledgeable in DOT (49CFR), ICAO (A.I.R. & IATA), IMO (IMDG), TDG, and ADR. Gene is one of the first three people in the world to become a Certified Dangerous Goods Trainer in five different sets of transport regulations. Gene has worked for carriers and for shippers, dealing with proposed products, with new products, and with waste, involving chemicals and involving articles, handling outgoing shipments and dealing with returns, on both sides of the Atlantic Ocean. Gene has been on a Hazardous Materials Emergency Response team, and on a volunteer fire department. Gene has developed and conducted training programs, primarily for shippers, involving some aspect of all hazard classes and divisions, including Class 1, Division 6.2, and Class 7. With degrees in Biochemistry and in Chemistry, and a minor in Microbiology, Gene regularly teaches in depth, detailed courses in Classification, and in Infectious Substances, as well as teaching more comprehensive classes involving all aspects of DG shipping, offering, and accepting. Gene is a current member of the Board of Directors at DGAC (formerly HMA), served on the initial Board of Directors for DGTA, and is currently also a member of COSTHA, AHMP, and SCHC.

Multi-Modal Hazardous Materials / Dangerous Goods
Classification Training

Sunday, April 22, 2018 through Monday, April 23, 2018

Course Topics and Schedule (Subject to Change)

Sunday, April 22, 2018

- 7:30 – 8:00 Registration and Continental Breakfast
- 8:00 - 12:00
Includes Break
- Introduction; the UN-system; the U.S. DOT process, IATA/ICAO, IMDG Code
 - Hazard class definitions; examples
 - Tests; criteria; data collection; packing group determination
- 12:00 – 1:00 Lunch (provided)
- 1:00 – 5:00
Includes Break
- Hazard classes continued
 - Classification Workshops
 - Hazmat Table
 - Sources of classification data

Monday, April 23, 2018

- 7:30 – 8:00 Continental Breakfast
- 8:00 – 12:00
Includes Break
- Dangerous Goods Lists
 - PSN selection; hazard hierarchy; mixtures and solutions; examples
 - PSN Workshop
 -
- 12:00 – 1:00 Lunch (provided)
- 1:00 – 5:00
Includes Break
- Labeling; placarding; marking; documentation
 - Preparing MSDS Section 14
 - Questions and Answers - bring your own!
 - Test on Classification, PSN Selection

Registration

Admission to the course will be on a first come basis. Payment must be received by March 10, 2018, to secure your space. Space is limited.

Fill out the registration form located on SCHC's website: <http://www.schc.org>

SCHC accepts checks, Visa, MasterCard and American Express.

Classification Training**

Sunday, April 22, 2018 through Monday, April 23, 2018

Cancellation Policy

No refunds will be given after March 10, 2018. No one will be admitted to the course unless all fees have been paid in advance. Substitutions are permitted. Every effort has been made to ensure the information in this brochure is accurate. SCHC reserves the right to modify this course without prior notice or to cancel the course 30 days prior to the course date. In the event this course is canceled, SCHC's obligation is limited to a full refund of the course fee.

Hotel Accommodations

Arrangements have been made for a block of rooms at the Hilton Orlando Lake Buena Vista Hotel – 1751 Hotel Plaza Blvd., Lake Buena Vista, FL 32830 – 407-827-4000. The rate is \$199/night through March 28, 2018. For reservations by phone, call 800-782-4414 (use code "CHC"). For online reservations use the [direct link](#).
