Ecotoxicology for Hazard Communication

Monday, March 18, 2019

Las Vegas, Nevada

Course Description

This course is designed to provide an introduction to the principles of ecotoxicology as they pertain to hazard communication. Emphasis will be placed on an understanding of how chemicals impact the environment, the transport and fate of chemicals within the ecosystem, and how environmental hazards and risk are assessed and communicated.

The goals of this course are to provide participants an understanding of how chemicals interact with the ecosystem to produce adverse ecological effects and to introduce them to the tools necessary to identify chemicals that can cause adverse ecological effects that are relevant to hazard communication.

This is considered to be a basic course and there are no prerequisites. However, it is recommended that participants have either taken the SCHC course, Toxicology for Hazard Communication, or that they be comfortable with the basic principles of toxicology.

Intended Audience

Hazard communication professionals looking to expand their knowledge and expertise regarding ecotoxicology and the assessment and classification of environmental hazards.

Course Director / Instructor

Robert Skoglund, Ph.D., DABT, CIH

Dr. Skoglund is the Director of Product Safety and Regulatory Affairs at Covestro LLC. His responsibilities include safety, compliance, stewardship, and sustainability for North America.

Instructor

Scott Strand

Scott Strand is the Global Regulatory Manager for the Abrasive Systems Division at 3M Company. His primary responsibilities include leading a team implementing processes and completing tasks for product regulatory compliance, LCM, NPI, Risk Assessment, and hazard communication activities. He has over 25 years of experience in the assessment, classification, and communication of chemical hazards and risks..

Course Fee: \$450.00 for members \$540.00 for non-members
