

GHS 2019 Latin America Update

R. Leticia Cuevas
SILLAC

Presenter biography

R. Leticia Cuevas directs the Chemical Management Compliance section, focusing on Environmental, Health, & Safety (EH&S), Occupational Safety under the International Labor Organization (ILO), and conducts extensive research and analysis on regulatory compliance in the workplace. Ms. Cuevas also provides external training on GHS and Chemical Management compliance for key executives and staff throughout Mexico, the US and Canada, as well as Latin American and Caribbean jurisdictions.

Ms. Cuevas holds a Master of Laws (LL.M.) from American University – Washington College of Law, a first law degree (JD) from the University of the State of Morelos, Faculty of Law and Social Science; and a Bachelor of Science from Pace University, New York campus.

Presentation abstract

The presentation outlines the GHS-implemented countries in Latin America and covers the following:

- Overview of the countries that are in the building-block phase
- GHS Mercosur countries include Paraguay (Mercosur country) and Chile (non-Mercosur country) that have still to implement
- Provides reasons for jurisdictions such as Peru and Colombia that have not expressly implemented GHS yet allow implicit use of some or all chapters in the GHS Purple Book
- Provides non-GHS countries that accept only country-specific mandatory CPL regulations
